## Synopsis Books:

Sasha's not a looking-to-the-future kind of guy, but he's made an exception with his plans to travel and meet lots of pretty girls. Too bad his Pack Alpha, fate, and reality have other ideas about his trip abroad. He's pretty sure he didn't sign on to be a diplomat for the Snowdonia Wolf Pack. Or to find a Mate. Especially not a human Mate.

Megan knows better than to let a sweet-talking charmer get under her skin, but Sasha's sexy playfulness is making her forget all her rules. Except one: she's not willing to risk her heart by falling in love. The gorgeous boy from Wales can only be a fling, especially since her over-protective brothers hate him on sight.

In the midst of a wolf uprising, a hesitant Mate, and Megans complicated family ties, Sasha learns that sometimes impulsiveness is dangerous and even lethal. Can he show Megan why they belong together before it all comes crashing down around him and he loses his Mate forever?
