Synopsis Books:

When snobbish book critic Ellery Sharpe screws up at Vanity Place magazine, her boss assigns her the ultimate punishment: write an ode to romance novels, a genre she considers the literary equivalent of word search puzzles. To make matters worse, he hires her sexy former party boy ex, Axel Mackenzie, to shoot the photos.

Axel really wants the project to succeed. For one, the magazine will double his fee if he convinces strong-willed Ellery to write a story no woman can resist. Besides, getting Ellery to fall for romance novels might be just the push she needs to believe people can change...even him. At his sisters advice, Axel gives Ellery a copy of Kiltlander, a much-adored romance whose warrior hero is utterly irresistible.

To her dismay, Ellery finds herself secretly falling in love with the story and with Axel, whos drawing his own lessons from the books compelling hero. With her carefully crafted image of herself crumbling and her dream job on the line, will Ellery risk it all to make the leap from tight-lipped literati to happily-ever-after heroine?
