Synopsis Books:

Sully is a sphere dealer at a flea market. It doesnt pay much Alex Hollidays stores have muscled out most of the independent sellers but it helps him and his mom make the rent. No one knows where the brilliant-colored spheres came from. One day they were just there, hidden all over the earth like huge gemstones. Burn a pair and they make you a little better: an inch taller, skilled at math, better-looking. The rarer the sphere, the greater the improvement and the more expensive the sphere.

When Sully meets Hunter, a girl with a natural talent for finding spheres, the two start searching together. One day they find a Golda color no one has ever seen. And when Alex Holliday learns what they have, he will go to any lengths, will use all of his wealth and power, to take it from them.

Theres no question the Gold is priceless, but what does it actually do? None of them is aware of it yet, but the fate of the world rests on this little golden orb. Because all the world fights over the spheres, but no one knows where they come from, what their powers are, or why theyre here.
