Synopsis Books:

Fair Winds, Foul Deeds

Sent to care for a young widower's son, Varina Cameron was captivated by Florida's Gulf Coast. But the paradise of Andrew McLaren's plantation harbored dark secrets - not the least of which was whether Andrew's wife had died of natural causes.

Trapped in a maze of murder and mystery, Varina turned to McLaren for protection only to discover that the handsome botanist's passionate nature offered a different kind of comfort. Although Varina wanted nothing more than Andrew's love, a near fatal accident led her to suspect that in his powerful embrace she might meet her own untimely demise.
