Synopsis Books:

Born with two right hands and two left feet, Esmerelda Maxwell struggles for life at Washington Memorial Hospital Center in Washington, D.C. Family friends forecast that Esmerelda's existence will be that of a disabled little girl. However, as Esmerelda ages, she proves that her hands and feet are not disabilities at all but gifts given to her to help others in need. She can breakup disagreements, determine when one is lying, and stop time. Esmerelda's birth and her gifts cause some family members and friends to seek counseling to better their lives of addiction, low self-esteem, and depression. Esmerelda ages from infancy to fourteen years of age. As a teenager, she finds her purpose in life as well as her first love interest. Let Esmerelda show you how she turns her unusual extremities into good. Take the journey through Esmerelda's life and expose yourself to important life lessons and gain an increased perception of the world around you.
