TEASER from Forbidden Fire: Launch March 27th:

Time held no meaning as my mind darted in and out of memories. Past and present collided to create a full-sensory collage out of my life: playing hide-n-seek with my best friends Lukewho always cheated by walking through walls when he was about to be caughtand Lucy; Mr. Caldryn critiquing my sketches and offering ideas to make them more realistic; targets changing faces, blending into the same person, their thoughts rippling through my mind like waves. Through it all, a demon stalked me from the shadows of my memories, never quite showing its face, but crouching, waiting.

And then I dreamed....

Sam and Drake may have escaped, but they arent freenot with a powerful Seeker after them. As Sam struggles with the ethics of her new powers and embraces a blossoming physical relationship with Drake, Lucy and Luke face challenges of their own.

With forces coalescing inside and outside the Rent-A-Kid dorms, its only a matter of time before the fire they started forces each of them to make choices they cant undo. But will it be enough to save them?
