Synopsis Books:

With humor and a modern perspective, young conservative journalist Kristin Tate points out what's broken in our government and shows readers how they can fix it.

Passionate and politically involved 24 year-old Kristin Tate worries that her fellow millennials, and even 40-something elders, have become politically ambivalent and brainwashed into accepting big government ideology--instead of thinking for themselves. But it's not too late to take on the status quo. Tate's fresh political action handbook, GOVERNMENT GONE WILD, is for a new generation of voters who, like her, are irked that they will be paying for this out-of-control government their entire working lives; and know that if America is to retain stability and liberty, it's going to be up to them to make sure government is working again. Smart, irreverent, and yes, hip, Tate shows readers on both sides of the aisle that politics isn't just vital to their future-it's a fun way to agitate the entitled political establishment.
