Synopsis Books:

Created by gods. Destroyed by revenge. Reborn in the darkest magic of all. THE TROY GAME. The ancient Aegean sorcery lives on.

Theseus bested the Minotaur with the aid of Ariadne, Mistress of the Labyrinth. So when Theseus betrays her, Ariadne turns her wrath upon him and all his world, the catastrophe strikes the Mediterranean. Thera explodes, Atlantis sinks below the waves, poisons fill the air, tidal waves inundate nations, entire peoples are destroyed.

Amid the chaos, the great city of Troy falls, undone as much by Ariadne's revenge as by Greek cunning. Among the scattered Trojans wanders one man, Brutus, who carries with him the Troy Game, the greatest secret the western world has ever known. And Ariadne wants it badly. As do her wicked daughter-heir successors.

The Greek goddess, Artemis appears to Brutus and offers him a splendid and powerful future if only he can resurrect the Troy Game. Hungry for power and a home for his people, Brutus accepts her challenge. And so the Troy Game begins, on the shores of the Thames in ancient Iron Age Britain.

But the malevolent Minotaur, Asterion, has escaped death and seeks to destroy the Game completely. And Cornelia, Brutus strange, unknowable wife, trails death in her wake.

Everywhere lurks Ariadne's legacy of hatred, carrying western Europe into a maelstrom of darkness
