Synopsis Books:

It was an absolutely perfect day . . . until everything went absolutely perfectly wrong.

Kent Anthony is a brilliant software engineer who is cashing in on a brilliant career. He's finally living the idyllic life, far from thoughts of theft and murder and other kinds of horrible criminal behavior.

He's left his past far behind . . . or so he thinks.

Ted Dekker delivers a fascinating story of the almost perfect crime, interwoven with a tale of bittersweet love that is almost enough to save a soul. A story that will bring you face-to-face with a hidden world more real than most people ever realize; a world where the unseen is more powerful than anything seen.
