Synopsis Books:

When four average teenagers Kris, Charity, Duncan, and Ian are invited out on a Friday night in June, they think it's just another stupid party. The new girl, the punk, the snob, and the nice guy don't expect anything particularly exciting to happen, so they are surprised when they find themselves, over the course of three days, unceremoniously brought together by both chance and an unerring kick to the family jewels.

As the weekend passes in a whirlwind of crazy, the four of them must navigate around a girl who has seen way too many bad villain movies, spying siblings, sickening merry-go-rounds, overprotective parents, July First, suspicious private investigators, and a potentially homicidal five-year-old kid.

But each of four is more than a single label, and perhaps just perhaps they will find out along the way that they have more in common than they thought.
