Synopsis Books:

Not every fairy tale has a happy ending, and the Sleeping Death has other forms. If you make a promise, then keep your word, or it could have unexpected outcomes. A Princess falls under a curse, though she is offered a way to escape it. The answer to the riddle may have been nearby for years. How many will the Kiss claim, and will the Princess see the way to break her curse? Or, will she live a lifetime never being able to give back something so simple as a kiss? A little Snow White, a sprinkling of Sleeping Beauty, a dash of King Midas, and influenced by countless other fairy tales, prepare for a darker journey than your usual fairy tale.

This short was written for the author's daughter and then submitted to the America's Best Author 2012 contest. No nominations were secured, but out of the 100's of contestants accepted she consistently places between the middle and upper 15%, an achievement that she feels acceptable considering the popularity factor that went into the ranking system that had been in the contest.
