Synopsis Books:

If a reasonable man knew in advance when hed be required to shoot, he wouldnt need a pistol in the first place.

Thom Tekton may not want a fight, but with the floods approaching, driving before it the desperate masses, he may have no choice.

Will his cunning and six guns be enough to protect his family?

Will the town survive long enough for the Ark to be completed?

In a shrinking world, what man chooses to include will be what defines him.
