Synopsis Books:

This is Alexs story. But he doesnt know exactly what its about yet, so you probably shouldnt either.

Instead, here are some things that its sort of about (but not really):

Its sort of (but not really) about brain surgery.

Its sort of (but not really) about a hamster named Jaws 2 (after the original Jaws (who died), not the movie *Jaws 2*).

Its sort of (but actually quite a lot) about Alexs parents.

Its sort of (but not really) about feeling ostrichized (which is a better word for excluded (because ostriches cant fly so they often feel left out)).

Its sort of (but not really (but actually, the more you think about it, kind of a lot)) about empathy (which is like sympathy only better), and also love and trust and fate and time and quantum mechanics and friendship and exams and growing up.

And its also sort of about courage. Because sometimes it actually takes quite a lot of it to bury your head in the sand.
