Hundreds of years after the Great Death desolated the planet, the world was reborn. It's now filled with human-animal hybrids and the difference between life and death is determined by your purpose and usefulness to society.

Mutter is in trouble. Hes an unwanted Guard and thats a death sentence until hes given an offer. Obey or die. It seems like an easy choice except in order to obey he must kill a child.

He's taken to a laboratory and locked in a cell, but hes not alone. There are things in the other cages. Things that dont move or smell like anything hes ever encountered. Creatures hes pretty sure shouldnt exist and dont exist in nature.

When his masters starts giving him shots, he begins to wonder if he's changing into something else. Something like the creatures in the other cages. He has to find a way to escape before it's too late.

"A fascinating glimpse into the world of the Lake of Sins." J. Urbanczyk
