Synopsis Books:

Ali has a great job, the worlds best friend and a body with curves in all the right places. But she has no self-esteem. She has suffered through depression and thinks she is overweight, and has never been able to find the right guy. She doesn't believe she is good enough for anyone, much less some hot-as-hell guy she randomly trips over at an art show that her best friend asked her to attend. When Jace asks Ali to join him on a spur-of-the-moment date, she inexplicably agrees.

They instantly hit it off, but Ali cant figure out why some guy who strikingly resembles her favorite rock star would find her even remotely attractive. Jace thinks she is the sexiest thing hes ever met and hopes he doesn't blow his cover, which could ruin his chances of finally being with a real woman hes never been able to find.

They each have deep emotional scars and are terrified of scaring each other away. Will their erotic nights be enough to overcome their dark pasts? Or will they rock each others world and finally find romance that has eluded them forever?
