A Game-Changing Approach To Investing in Today's Fast-Paced Market!

"Brian has a great understanding of the social web and financial markets' intersection. I was inspired by Twitter in 2008 and started Stocktwits. Learning how to use the modern social tools to speed up your knowledge and abilities is something this book will help you accomplish." --Howard Lindzon, founder of StockTwits

From the Author:

My goal in writing this book is to help individuals understand how they can use social media and crowd-sourcing tools to inform their decisions. Messages on Twitter and StockTwits have helped explain large stock moves. Investors can use social media to learn about news before it hits the mainstream media. The best way to enter the fray of the rapidly-evolving and exciting world of social finance is to get acquainted with the free resources available online.
