## Synopsis Books:

### **What is a soul? Are miracles real? When the soul is healed, how does the body respond?**

Throughout history, there have been countless cases of miracle healings, unexplainable by modern science. Dr. and Master Zhi Gang Sha has personally healed thousands of patients, usually in front of dozens of witnesses. Hundreds of videos of these healings can be seen on YouTube. But how can these healings be explained?

*Soul Mind Body Science System* is the first book to explore the scientific explanations for why soul healing miracles are genuine. Written with Dr. Rulin Xiu, an expert on string theory and quantum physics who trained at The University of California, Berkeley, Dr. Sha shares, for the first time, the scientific theories that explain why all actions on Earth are guided by the reality of the soul.

In *Soul Mind Body Science System*, the complex and fascinating relationships present between matter, density, information, soul, and consciousness are thoroughly examined. Written for armchair and professional scientists alike, this book makes a significant contribution to the ongoing debate about the true nature of reality.

As the lines between science and spirit blur, this investigation becomes ever more important. The groundbreaking *Soul Mind Body Science System* is for all readers who have contemplated the fundamental scientific laws of the universe and sought answers beyond those offered by popular science and mainstream faith.
