## Synopsis Books:

Spartan, his three friends, and his dog, Grimm, as they travel the Universe. The mission of this talented team is to gain and share knowledge of their amazing discoveries. With the power of their minds, they made contact with a race of alien explorers, who communicate with them via an egg-shaped spaceship that is itself an organic alien being. Their expeditions are made even more exciting through the use of new technology and cool gadgets, provided by their new friend, who goes by the name of Egg.

In Book 1, A Trip to the Rainforest, the teams introduction to the rainforest and all its wonders is made even more fun by the company of two native Amazonian Indians. Their extraordinary visit is not without a few close calls. After an eye-opening experience with a mysterious Shaman, their own troubles seem to pale in comparison to what they learn. The rainforest is in danger of vanishing, and all its creatures and plant life are at risk of extinction. With the help of the Green Eggs out-of-this-world technology, the team is able to put a big dent into the path of destruction and re-new hope for the survival of the rainforest.
