Synopsis Books:

A story is never a good story unless it starts with a murder. The more unusual the murder, the better the story, generally speaking. Meet Caecilius (KAI-KILL-EE-USS) Rex, a young detective in the not-too-distant future, a smog-filled post apocalyptic world riddled with crime and conspiracy. When a new case quite literally falls at Rex's feet, he teams up with his neighbour and associate Kendra Nai, an ex-army sergeant recently dismissed, to investigate. Little do they know that the events of The Atomic Circus will be the first step to solving the case of a lifetime.
