Synopsis Books:

When seventeen-year-old Ishmael wakes up from stasis aboard the *Pequod*, he is amazed by how different this faraway planet is from the dirty, dying, Shroud-covered Earth he left behind. But Ishmael isn't there to marvel at the fresh air, sunshine, and endless blue ocean. He's there to work, risking his life to hunt down great ocean-dwelling beasts to harvest and send back to the resource-depleted Earth and get paid handsomely in exchange. Only it isn't a life of luxury that Ishmael dreams of; it's a way to get his foster parents safely off the crumbling Earth before it's too late.

But though easy prey abounds, time and again the chase boat crews are ordered to ignore it in order to pursue an elusive monster beast so enormous and deadly that few who've seen it have lived to tell the tale. One who has is the ship's captain, Ahab. It's rumored that he lost his leg to the beast years ago and that he's now consumed by revenge. But is there more to Captain Ahab's obsession with the beast than a desire for vengeance?

Master storyteller Todd Strasser breathes new life into a great American classic and takes readers on an epic adventure they won't soon forget.
