Synopsis Books:

Set in Caxley, the quiet country town neighboring the village of Fairacre, The Caxley Chronicles follow two intertwined families, the Howards and the Norths, through the tumultuous first half of the twentieth century. The first Caxley tale, The Market Square, introduces the deep-rooted camaraderie of Septimus Howard and Bender North, whose friendship survives misunderstandings, the tragedy of war, and the bitterness of loss. The story of their families continues through the generations. The second tale, The Howards of Caxley, tells of Edward Howard, grandson to them both. Edward flies for the Royal Air Force Reserve as England prepares for another war -- and Caxley braces itself for overwhelming changes.
