Synopsis Books:

Billionaire Palmer Lloyd is accustomed to getting what he wants--and what he wants for his new museum is the largest meteorite on earth. Unfortunately for Lloyd, it's buried on an inhospitable Chilean island just north of the Ice Limit in the most brutal, unforgiving seas in the world.

Like Douglas Preston and Lincoln Child's earlier collaborations (*Relic*, *Thunderhead*, and others), *The Ice Limit* tools along swiftly, blending nicely drawn characters (excepting, regrettably, the book's true protagonist, the meteorite), a reasonably exciting narrative, and enough graspable science and plausible-seeming theories to bring readers happily up to speed and keep them climax-bound. Not the authors' best effort, certainly, but a fine diversion nonetheless. --*Michael Hudson*
