Synopsis Books:

How can schools and teachers change to keep up with the current educational landscape, a world in which young people must learn how to ask the right questions, not merely parrot back the 'right' answers? In this urgent and insightful book, John Mellow draws on his experience as a reporter for PBS and NPR to examine this question and others, and offer possibilities and solutions for a new education system. Told through warm storytelling and compelling case studies, Mellow paints a vibrant and inspiring picture of why and how we must transform - not reform - our schools.
