## Synopsis Books:

Suzanne Finnamore's universally applauded *Otherwise Engaged* followed one woman's whirlwind ride from diamond ring to altar. *The Zygote Chronicles* is her singular take on the next leg of the journey -- a riotous and poignant novel in journal form that takes us from conception to delivery room. Through the voice of a whip-smart, sass-talking everywoman Zygote reveals the unsettling and uproarious truth about pregnancy and the prospect of motherhood. *The Zygote Chronicles* will resonate for any woman who has even briefly considered motherhood. The strange purgatory of pregnancy has been a fact of life since Eve ate the apple, but never has it been recounted in such brilliant, hilarious detail.
