Synopsis Books:

John Lanchester, author of Whoops! and Capital takes us on a whirlwind tour of the Tube to show its secrets, just how much we take for granted about it, and what we're really talking about, since we so often do talk about it. In short, he shows what a marvel it is - part of a series of twelve books tied to the twelve lines of the London Underground.

In John Lanchester's inimitable style, he unravels the various mysteries of the Underground and explores its true significance for both London and the wider world. Like, what's the difference between the Underground and the Tube? How do tube drivers get to work to start driving the tubes when the tube lines aren't running? And where can you get your hands on driver-point-of-view videos?
